KIDTIVITY LAB

Our family science roles

Swap roles each round. An adult prepares and supervises every experiment.

MEASURER

Gets the supplies ready.

Name: _____

POURER

Adds ingredients slowly.

Name: _____

PREDICTOR

Says what might happen.

Name: _____

RECORDER

Draws or writes the result.

Name: _____

Our experiment log

Experiment / date	We predicted...	We noticed...

Family question: What would we change and try next?

Wear goggles. No tasting. Work on a tray. Never cap a reacting bottle. An adult handles balloons and scraps; keep them away from young children.
